

Hennepin County Sheriff's Office Enforcement Services Division – Water Patrol Unit

TEMPORARY STRUCTURE PERMIT REGULATIONS for WATER SKI JUMPS

Each year you will be required to reapply for your temporary structure permit. This will give our office a chance to reassess any problems that have arisen in regards to your ski jump during the past year. To prevent any problems, you will be required to comply with the following regulations:

- The permit number must be visible and displayed in 2" size numerals on ONE side of the ski jump.
- The jump must be lighted during the hours of darkness.
- Each side shall have enough reflectorized material so as to indicate the jump's size from all angles.
- The permit number must be attached to the water ski jump so that it is clearly visible to deputies inspecting the water ski jump.
- The ski jump cannot be a navigational hazard.
- The ski jump must conform to all state and local ordinances.
- The ski jump must be removed each year before December 15, after which your permit will expire.

****FOR LAKE MINNETONKA ONLY****

Slalom courses on Lake Minnetonka **MUST BE REMOVED**. No submerging allowed. Courses on Lake Minnetonka do not need a permit, but **must** be removed when not actively using the course.
